VILLA FLEEING FROM TORREON

His Friends in Washington Give It Out That An Important Military Movement Is Under Way.

Washington, D. C., Oct. 15.—Reports received at the "Constitutionalist" junta are that Francisco Villa has left Torreon and is en route east with a column of 8000 cavalry and artillery, presumably to attack Saltillo or Monterrey.

Federals are slowly gathering around Torreon for an assault upon the town and the truth is believed to be that Villa is not willing to face the music and fight.

Simultaneously a large column of Gen. Blanco's Tamulapae troops left Camargo, proceeding southwesterly, indicating, according to the rebels here, that some important movement is in progress. It is certain that Laredo is isolated and that the "Constitutionalist" have seized and cut the railroad between that place and Monterrey, said members of the junta.

That Gen. Huerta, by his action in declaring himself dictator of Mexico, has "committed political suicide" and that his fall is near, was the statement made today by Dr. Francisco Vasquez Gomez. Gomez has been in Washington for several weeks and is in close communication with friends throughout Mexico.

U. S. DEBTS MAY BE RECALLED

(Continued from previous page.)

sumption of both executive and legislative powers in Mexico and that in view of his course, could not regard as constitutional, the elections planned for October 26.

Two notes were sent, the one strongly phrased and written by secretary Bryan, inquiring about the safety of the imprisoned members of the Mexican congress, and the other drawn in forceful language by president Wilson himself and signed by the secretary, practically the last efforts of the Washington government to deal with diplomatic means unless the election is a decided change in spirit on the part of the officials in Mexico City.

The negotiations through John Lind had proceeded to the point where the state department accepted the endorsement of Federico Gamboa for the presidency as meaning the elimination of Huerta, and where it was confidently hoped that a fair and free election would be held on October 26.

Wilson Makes Position Clear.

Now, however, president Wilson has made it clear that the Washington government has, with the events of the last few days—the imprisonment of the deputies and the establishment of a dictatorship by Huerta—lost all hope of securing a constitutional election held by the Huerta regime.

The steps taken were communicated to all foreign governments. No further negotiations were planned through diplomatic channels and it would not be surprising that if John Lind, who has been waiting at Veracruz to observe the manner in which the Huerta officials carried out their promises, should return to the United States at once.

Huerta's decrees proclaiming himself in charge of the departments of the interior, administration, finance and war, were received here yesterday and the texts given out at the state department. The decrees were read at the cabinet meetings and members of the cabinet expressed themselves as astonished at the audacity of Gen. Huerta.

Washington Awaits Reply.

Official Washington is awaiting the formal reply being drafted by the Huerta administration. Charge O'Shaughnessy reported that he had conveyed both communications and had been assured with respect to the imprisoned deputies that no violence would be done to them but that they would be tried for sedition.

It is the second note of the American government which is said to be only one hundred and fifty words in length, practically breaking off negotiations with Huerta, which is believed to have prompted Gen. Huerta's description, "intemperate."

American officials hold that with most of the Mexican congress in jail, a prominent member of congress who dared to speak adversely to the Huerta administration, still mysteriously concealed and the congress dissolved, it is impossible for the civilized world to believe the Huerta group capable of establishing or maintaining constitutional authority in the southern republic.

MAY GIVE DIPLOMATIC PASSPORTS AT ONCE

Huerta Likely to Send United States Representative Back Home as Result of Bryan-Wilson Note.

Mexico City, Mex., Oct. 15.—Nelson O'Shaughnessy, American charge d'affaires, was requested by telephone to call at the Mexican foreign office late last night, immediately after the conclusion of the cabinet meeting which had discussed the two recent communications from the United States government. These communications, it is reported, contained a warning against the Mexican government permitting harm to come to the Mexican deputies imprisoned by Gen. Huerta, and referred also to the unconstitutional situation brought about by the forcible dissolution of the chamber of deputies. The American charge went to the foreign office and remained there some time, but afterward declined to talk of what had occurred.

According to a rumor, the American charge is to be given his passports, as the Mexican government is said to regard the attitude of the United States as such that it no longer can continue to receive a Washington representative. It is also said that president Wilson's personal representative, John Lind, now at Veracruz, will be asked to leave Mexico.

My government has no such intention, he said. I have no information as to what the government of the United States intends, but so far as my government is concerned, the American charge may remain and will receive every consideration.

Regarding the possible withdrawal of recognition by Great Britain and the dispatch to Mexico of warships by Germany, the foreign minister said that he had no official information. He regarded it as extremely improbable that Great Britain would change her policy, citing the recent dispatch of a new ambassador to London, charged to the Mexican capital, which step would not have been taken if the British foreign office intended a change in policy.

The warships, he said, were probably only on a visit of courtesy.

FEDERAL GENERAL ARRESTED IN TEXAS

Joaquin Mas Charters Special Train for Trip From Eagle Pass to Nuevo Laredo for Conference.

San Antonio, Tex., Oct. 15.—Mexican federal Gen. Joaquin Mas, en route across American territory from C. P. to Nuevo Laredo, was arrested by United States authorities here today.

Eagle Pass, Texas, Oct. 15.—Gen. Joaquin Mas, the federal general at C. P. Diaz, who secured permission from the war department to pass through American territory to Nuevo Laredo for a conference, left here this morning. To avoid demonstrations on the American side, Gen. Mas ordered a special train to meet his party at the international border.

A report persisted here today that the war department had ordered permitting Gen. Mas to pass through American territory came directly from a request of secretary of state Bryan on the war department. The permission caused widespread comment throughout the border, because "Constitutionalists" have been forcing Gen. C. P. Diaz, reported they were unable to get permission to cross into Texas.

Alcinto Cadenas, chief clerk to United States commissioner Bonnett, is in custody of the Mexican federalists in C. P. Diaz. He is charged with sedition and phrases calculated to increase hatred against provisional president Huerta.

Donnell went to the Mexican side yesterday and made a personal request to Gen. Mas that his clerk be released, but his request was refused. Cadenas is a Mexican.

TEXAS GUARDSMEN PREPARE FOR WAR

Austin, Texas, Oct. 15.—An important conference was held today between adjutant general Henry Hutchings and brigadier general Percy C. Townsend, commander of the Texas National guard. Col. Cecil A. Lyon, of Sherman, commander of the Fourth Texas infantry, and Col. B. F. Delamater, of Caldwell, commander of the Second infantry, while it was declared the purpose of the conference was to discuss guard matters and take steps to fill vacancies, it is understood the guard is getting ready for any emergency that may arise in connection with Mexico.

Chronic Constipation Causes Many Serious Ailments

MRS. J. O. ATKINSON, 1229 North Emporia Ave., Wichita, Kansas.

Mrs. J. O. Atkinson, of Wichita, Kansas, firmly believes that she would have been dead had it not been for Peruna. She had been in constant correspondence with her husband for twenty-five years, more or less. As is usual in such cases, she was suffering from a complication of diseases.

Of course a great many things had been resorted to, but it appears from the account of her case that she received no particular benefit from anything that she tried. As her husband states: "Her case had baffled the skill of some of the most noted physicians."

Prominent among her other troubles was chronic constipation. Constipation is very distressing where it continues. The choice between constipation and the continued use of physic is a very doubtful one.

It was in this dilemma that Peruna was used. She used it faithfully, according to directions, and was completely restored, not only from her constipation, but also her former ailments.

This occurred some twelve or fifteen years ago, since which time we have been in constant correspondence with her, and she has continued to praise Peruna and enjoy the best of health.

People who object to liquid medicines can now obtain Peruna Tablets.—Advertisement.
